

Focus on your business. We'll do the rest.

MANAGED IT SERVICES FROM DATA NETWORKS

Your technology should accelerate growth, not slow you down.

IT can play a major role in the success of your organization. But you can also find yourself burning far too many valuable cycles keeping it up and running smoothly—cycles better spent on the strategies and innovation needed to move your business forward.

If you “own” IT but have few or no internal resources to support it, Managed IT Services from Data Networks make a lot of sense. Rather than going it alone, let our team of professionals become your expert IT department. You'll get end-to-end IT management with unlimited support, a single point of contact for your needs, plus cost stabilization with fixed monthly pricing.

Much more than just IT management.

With Data Networks you get a partner dedicated to more than just day-to-day IT management. Sure, we make sure your IT always works great. But we also dedicate our considerable resources to a relentless search for IT improvement. Through *Technology Alignment* we continually secure and optimize your IT environment to align with your business goals. And our *Strategic IT Planning* helps you prepare for and realize your future IT vision.

Perform today, transform tomorrow.

Win today's battles and prepare your business for tomorrow's challenges with Managed IT Services from Data Networks. Our team is passionate about enabling your success through IT. Let's get started!

GET WHERE YOU WANT TO BE WITH FULLY MANAGED IT:

- ✓ **ELIMINATE** your IT support burden
- ✓ **ACCESS** a team of experienced IT professionals
- ✓ **MINIMIZE** unproductive downtime
- ✓ **SAFEGUARD** company data and assets
- ✓ **IMPROVE** visibility of network assets and performance
- ✓ **STABILIZE** your IT spend
- ✓ **FOCUS** on innovation and strategy

Here's What to Expect:

✓ SUPPORTED HARDWARE/SOFTWARE

Data Networks supports hardware and software from all major manufacturers. Hardware/software must have an active support contract; software must be legally licensed.

✓ SUPPORT AVAILABILITY

Service Desk personnel are available via telephone or web portal between the hours of 8AM and 5PM EST, Monday through Friday, with Onsite Service Desk provided between 8AM and 5PM EST, Monday through Friday. All support calls will receive a response in 30 minutes or less. Support calls are unlimited and may be placed by any member of the Customer organization. Service Desk is unavailable on the following holidays: Memorial Day, Independence Day, Labor Day, Thanksgiving Day, Christmas Eve, Christmas Day, New Year's Eve, and New Year's Day.

✓ RESPONSE TIME

All support calls must be initiated via the Service Desk. All support calls placed during regular support hours will receive a response in 30 minutes or less. Our support team will work to resolve issues first remotely, then onsite as needed. Priority (P1) issues, defined as causing widespread outage or significant business interruption, will receive remote access by a system engineer in two (2) hours or less. Any onsite support required will arrive 8 AM next business day.

✓ AFTER HOURS SUPPORT

Calls received outside of regular support hours will receive a call back by 8 AM the following business day. Weekend and after hour support available for extra charge.

✓ INCLEMENT WEATHER

If Data Networks offices are closed due to inclement weather, only remote support will be available. Your primary POC will be notified when offices are closed.

✓ NEW PC/PRINTER SETUP/MOVE

PC/Printer/Peripheral setup is free when included hardware is purchased from Data Networks. A fee of \$150 per instance will apply for existing equipment or hardware not purchased from Data Networks.

✓ LINE OF BUSINESS APPLICATION SUPPORT

Data Networks will work with your LOB vendor to facilitate application support. LOB support must be initiated by Customer with the application vendor. Data Networks will support where technical assistance is required. All support is subject the application provider's terms of service.

➔ [Learn more online at datanetworks.com/managed-it-service/fully-managed-it-services](https://datanetworks.com/managed-it-service/fully-managed-it-services)

✓ ISP SUPPORT

Data Networks will work with your internet service provider to facilitate support. Data Networks will initiate support calls to these providers for detectable failures. Non-detectable failures require the customer to contact Data Networks to initiate support. All support is subject to the internet service provider's terms of service.

✓ PROFESSIONAL SERVICES

Available on a project basis at additional cost, Data Networks professional services can be used to implement remediation and improvements identified by your vCIO or significant changes to your environment as a result of our network administration audits. All managed services customers receive a 20% discount on professional services.

✓ MINIMUM CUSTOMER REQUIREMENTS

Certain minimum IT standards must be in place at the Customer site to ensure Data Networks can provide the best possible support:

- Active Directory Domain Environment
- Hardware is Commercial-Grade with Active Manufacturer Warranty
- All Software is Legally Licensed with Active Manufacturer Support
- Third-Party Support Agreement for LOB Applications is Maintained
- Broadband Internet Access Speeds: 25Mb/s Download, 5Mb/s Upload
- Properly Sized, Operational Uninterruptable Power Supply (UPS)
- Designated Point of Contact for Administrative Issues
- Access to Systems During Support Hours

⊘ WHAT'S NOT INCLUDED

- Replacement Parts
- Break Fix for Out-of-Warranty Devices
- Project Work (see Professional Services)
- LOB App Support Without a Current Vendor Support Contract
- Home Office Equipment
- Upgrades to LOB / Specialty Applications
- Building Security System Support
- Changing Data Backup Media (Tapes or Cartridges)
- Specialty Equipment (e.g. Medical Devices, Point of Sale)
- Video Conferencing / Projector Equipment
- Linux Support
- Copier Support
- Cabling Services
- Non-Corporate System Support
- Environmental Disposal Fees
- Consumer Software + Hardware Support
- PBX or Hybrid Phone Support

Onboarding

Month One of service covers our proven Onboarding process that ensures a speedy and seamless transition to your managed environment. You'll be up-and-running in just 30 days after contract acceptance.

KICK-OFF

We'll meet with you and your team to walk you through our engagement process and set mutual expectations for our partnership.

AUDIT

Next, we'll complete an audit of your current environment that includes a full asset inventory and an assessment against our minimum requirements for system management.

CAPTURE

In addition to your asset report we capture warranty details and configuration information, create network diagrams and more to ensure we share an in-depth knowledge of your environment.

RECOMMEND

Based upon our audit we'll identify adjustments necessary for service initiation and provide our initial round of technology alignment recommendations.

INITIATE SERVICE

You're now in full management mode. We'll schedule your monthly Technology Alignment and quarterly Strategic IT Planning sessions and begin supporting your IT environment.

Professional Services

Available on a project basis at additional cost, Data Networks Professional Services can be used to implement improvements and upgrades identified through *Strategic IT Planning* with your vCIO. All Managed Services customers receive a 20% discount on Professional Services. To learn more about our Professional Services capabilities, experience, and certifications visit us online at datanetworks.com.

DISCOUNT ON PROFESSIONAL SERVICES AVAILABLE TO ALL MANAGED SERVICES CUSTOMERS

Managed Modules

In addition to Managed IT Services, we offer Managed Modules designed to address unique needs that fall outside our core Managed IT Services offering. Each module represents a fully managed service available as an add-on to your Managed IT Services contract. Modules include: Managed BCDR, Managed Microsoft 365, Managed SaaS Protection, and Managed NaaS.
